## Siri Hollander

Artist Siri Hollander was born in New York in 1959 and lived most of her childhood in Andalusia, Spain. Influenced by a family of artists, she began sculpting at the age of seventeen. Seemingly isolated from normalcy, Siri established a connection with the horses and other animals that surrounded her in her youth.

By apprenticing with several accomplished sculptors in both America and Spain, she developed her own sculptural form based on her unique subjects, horses, and figurative forms. Hollander's sculptural medium combines steel and cement creating her trademarked texture, which when cast in bronze brings her sculptures to life.
